

CRASH SCIENCE IN THE CLASSROOM.

STRESSING SILLY PUTTY

NGSS Standards Alignment

High School

HS-PS2-6

Communicate scientific and technical information about why the molecular-level structure is important in the functioning of designed materials.

HS-ETS1-2

Design a solution to a complex real-world problem by breaking it down into smaller, more manageable problems that can be solved through engineering.

Middle School

MS-PS2-2

Plan an investigation to provide evidence that the change in an object's motion depends on the sum of the forces on the object and the mass of the object.

Grades 3-5

5-PS1-3

Make observations and measurements to identify materials based on their properties.

5-PS1-4

Conduct an investigation to determine whether the mixing of two or more substances results in new substances.

5-PS2-1

Support an argument that the gravitational force exerted by Earth on objects is directed down.
