

CRASH SCIENCE IN THE CLASSROOM.

TWIRLING PENNY

NGSS Standards Alignment

High School

HS-PS2-1

Analyze data to support the claim that Newton's second law of motion describes the mathematical relationship among the net force on a macroscopic object, its mass, and its acceleration.

Middle School

MS-PS2-2

Plan an investigation to provide evidence that the change in an object's motion depends on the sum of the forces on the object and the mass of the object.

Grades 3-5

5-PS2-1

Support an argument that the gravitational force exerted by Earth on objects is directed down.
